※MENU SUBJECT TO CHANGE WITHOUT NOTICE※

COVID-19 has imposed hardships on all segments of the food and supply chains, simultaneously affecting farm production, food and supply processing, transport and logistics, and final demand of products. Not all sectors and products have been equally affected, and different products have experienced disruptions at different stages of the supply chain. We remain committed to try our best to honor the printed menu at all of our schools. We will continue to offer a variety of nutritious choices to all our students during these difficult times.
